PRICE FIVE CENTS

3 Major Prizes, Many Other Awards Will Be Given Away At Cooking School This Evening

The most successful Gettysburg Times Cooking School in 28 years will hold its final session this evening with the awarding of three major prizes, a Bendix Duomatic Home Laundry, a Norge Cook-arama electric range and an RCA 21-inch deluxe television set. The retail value of these three prizes totals \$1,300.

Miss Linehan, home economist, who has been conducting the cooking school in the auditorium of the Gettysburg High School throughout the week, will begin this evening's session at 7 o'clock. Doors to the foyer will be opened at 5 o'clock and those to the auditorium at 6 o'clock to take care of the large audience anticipated. Carl A. Baum, of The Times' advertising department, said Thursday evening that "3,600 persons have attended the first four sessions of the Cooking School."

In addition to the major prizes many other prizes will be given away at the final session tonight. Karl Rohrbach, Allentown, will entertain with vocal solos. Eddie Andrews, Gettysburg College student, will play the organ.

Favorite Fudge

Favorite of the recipes Thursday evening by Miss Linehan was Mrs. Eisenhower's Fudge released to the press by the First Lady several months ago. "This is a wonderful candy recipe for church affairs," said the lecturer. "You can make up three pounds in one batch, store it in a tin box to keep moist and have it fresh and smooth for bridge club, bazaar or for home."

Mamie's favorite recipe calls for 4½ cups of sugar, a pinch of salt, two tablespoons of butter, one tall can of evaporated milk, 12 ounces of semi-sweet chocolate bits, 12 ounces of German sweet chocolate, one pint jar of marshmallow fluff (two jars), two cups nutmeats.

"Velvety Fudge"

Miss Linehan boiled the sugar, salt, butter and evaporated milk for six minutes. She put in a large bowl 12 ounces of semi-sweet chocolate bits and 12 ounces of German sweet chocolate, marshmallow fluff and nutmeats. She poured the boiling syrup over the ingredients in the bowl and beat it until the chocolate

SUMMER R. C. SWIM CLASSES TOO POPULAR

What the Adams County Chapter of the Red Cross is going to do with the hundreds of Adams County boys and girls who are registering for summer swimming classes is rapidly becoming a major problem for chapter officers.

There was no exact figure available today on registrations, but Mrs. Peggy P. Hill, executive secretary, estimated that more than 600 have registered for classes that are to begin June 18 and run for six weeks.

The Battlefield pool will be used but plans previously announced for using Laurel Lake for teaching classes of upper Adams County youngsters have been dropped by upper end parents who had proposed the Laurel Lake site earlier.

Facilities Limited

The present prospect is that all of the pupils in the county, excepting in the Littlestown area, will have to be taught at the Battlefield pool. Crouse's pool at Littlestown will be the site for classes for youngsters in that community.

In other years the Gettysburg Country Club pool has been used for two weeks of classes for more advanced swimmers. That pool may also be available this summer for some classes.

165 From Bendersville

Mrs. Julius Swope, the Red Cross's new water safety chairman, and Mrs. Hill attended a PTA meeting at Bendersville Thursday evening to explain the Red Cross summer water safety program and after the meeting registered about 165 boys and girls for the classes.

Mrs. Hill said that Cashtown, New Oxford and other county communities are planning to send children here for summer training in water safety.

The possibility of closing registrations before the announced deadline of June 9 was being considered. The problem of finding adequate trained instructors for so many pupils was another factor of the problem.

Two choirs will provide music next Sunday and Friday evenings in connection with the Lutheran Mission. Sunday afternoon at the opening service on the college campus. Prof. Parker B. GOP WOMEN TO MEET SATURDAY

Miss Bertha S. Adkins, Salisbury, Md., assistant to the chairman of the Republican National Committee, will be the guest speaker at the third annual tri-county conference and tea of the 19th Congressional District, Republican Council of Women, at Allenberry Inn, Boiling Springs, Saturday.

Miss Adkins entered the political field in 1946. Besides being a member of the Republican National Committee, she has represented Maryland since 1948.

"The efficiency and effectiveness with which Miss Adkins served both her constituents and the interest of the National Committee led to her selection as Executive Director of the Women's Division of the National Committee in March, 1950. She held that position until her elevation to the National Chairman.

"She initiated and developed the Women's National and Regional Conferences in preparation for the 1954 campaign and similar 1955 Conferences in preparation for the 1956 Presidential campaign," a GOP spokesman said.

FRUIT GROWERS SAY BLOSSOM TOUR "SUCCESS"

Adams County's fruit growers, with last Sunday's apple blossom tour behind them and with expectations that great numbers of visitors will again travel through the fruit section this Sunday, Thursday night met at Biglerville to discuss plans for next year's "tour."

Blossoms in the northern end of the county will be at a peak this weekend, it was reported, and it is expected that many who visited the southern and middle sections of the fruit belt last Sunday for the formal Apple Blossom Tour will be back again to see the more northern orchards which last week were not in bloom.

To help the returning visitors, the fruit growers decided to leave the "Apple Blossom Tour" directional markers at intersections for another week.

Tour A "Success"

The 50 attending Thursday's session voted to double the number of apples and amount of apple juice available for presentation to visitors at next year's blossom tour. This year the various stands along the way "ran out" of apples and apple juice for the guests.

Reports of various chairmen all pointed to the conclusion that the tour last Sunday was a "success." A number of growers held "open houses" at their own farms last Sunday to permit visitors to tour an orchard and some others are planning "open houses" this weekend for the visitors to the fruit belt.

Guy Beamer was appointed chairman of a committee to visit restaurants and hotels in the area during the peach and apple season to urge the chefs to feature special apple or peach dishes.

Fruit Grower President Ralph Tyson was asked to appoint a committee to study methods of financing the annual tour program without seeking outside aid.

olate melted. The mixture was poured into a buttered pan and set aside several hours before cutting.

As a food tip the lecturer advised her audience "to bring sugar to a boil slowly. Before stirring your fudge mixture be sure that all the sugar grains have melted. In this way you will always have a smooth, velvety fudge," she said.

As a "quickie" recipe the home-economist recommended coconut graham crisps. She creamed ½ cup of butter until it was soft and fluffy and gradually added ¼ cup of brown sugar which she blended until creamy. She beat in two eggs, one at a time, and then stirred in one cup of sifted all-purpose flour, ½ cup of rolled oats, ½ cup of graham cracker crumbs, ½ cup of chopped walnut meats, and ½ cup of shredded coconut. Salt was added to the flour and ½ teaspoon of vanilla was added for flavor. Miss Linehan spread the cookie mixture on a greased cookie sheet and baked in a hot oven 400 degrees for 30 minutes. She cut the batter in squares while warm.

Flavored Steak

For company night or family enjoyment the home economist recommended beef stroganoff which is steak flavored with dry mustard, salt, pepper, sour cream to which two cups of water and two tablespoons of fat have been added. "This dish can be served hot in a ring of mashed potatoes or fluffy boiled rice or hot buttered noodles," said Miss Linehan. "The recipe may be made quickly with left-over meat from a large roast, using ready made left over gravy."

To garnish her roast loin of pork Miss Linehan encircled the meat with oven-browned potatoes and topped it with red spiced apples. "I like lots of color in my foods," she explained, "and the bright red apples add eye-appeal to the meat."

A new version of the old favorite was Miss Linehan's New England clam chowder to which she added three ounces of salt pork, sliced small.

Applesauce Pudding

Colorful was the green and pink luncheon avocado salad made with fully ripe avocado pears, fresh frozen devilled shrimp, head lettuce, mayonnaise dressing, chili sauce and lemons. "This dish can be accompanied with hot Flakon muffins," she said.

"A simple but unusually good dessert is my applesauce pudding," revealed the home-economist. She combined raspberry apple sauce for flavor and color, three egg yolks, grated lemon rind, vanilla, three egg whites, ¼ teaspoon of salt and six tablespoons sugar.

The following children participated in a Fashion Show presented by the Jack and Jill Shoppe: Barbara Hackensmith, Susan Welch, Stephanie Smith and Stephen Neibler. Barbara wore a white summer frock trimmed in red with a crinoline petticoat; Susan a blue and white dress; Stephanie a red and white party organdy frock and Stephen a yellow sport jacket with brown stripes, brown short pants and a brown Eton hat.

YOUNG FARMERS HEAR SPEAKERS

Adams County ranks seventh among counties in Pennsylvania in use of fertilizer, Dr. Arthur M. Smith, agricultural director of the Olin Mathieson Chemical Corporation, Baltimore, told the Upper Adams Young Farmers Association at its meeting Thursday evening at Biglerville High School.

Dr. Smith and Dr. Fred Lewis, pathologist at the Arendtsville Fruit Research Laboratory, Arendtsville, were the speakers.

Telling the group of the need of phosphorus for seedling plants, he urged them to use fertilizers which will make the phosphorus quickly available. Discussing fertilizer costs he added "the nitrogen bought in a complete fertilizer is the most expensive you can buy" and urged purchase of fertilizers containing high percentages of phosphorus and potash and low percentages of nitrogen and then using some other source, such as anhydrous ammonia, to provide the nitrogen.

Dr. Lewis told of disease causing organisms, their methods of attack and their effect on fruit. Virus diseases are "difficult to control" because the virus is in the sap of the tree. Using virus free stock is "good practice," Dr. Lewis said. Trees often recover from virus disease and recover up to 90 per cent of their production, he said.

"A virus disease known as 'yellows' can knock off many leaves in a single day when weather conditions are right. Mosaic on apple, another virus disease, spreads almost entirely by the use of infected bud wood." He discussed nutritional deficiency in fruit as well as toxicity symptoms caused by excessive fertilizer. He discussed bacterial and fungus disease now causing damage in the county such as powdery mildew, scab in apple and cherry brown rot, all caused by fungi.

Crow was named regional vice president succeeding Becker. Gettysburg came in second as the outstanding Jaycee unit of its size in the state. The delegates reported distributing several hundred folders, on Gettysburg, provided by the Travel Council, at the convention.

Donald Becker was named to represent the Junior Chamber on the Travel Council and Richard Bruce is the alternate. A \$25 donation was voted to the Gettysburg Junior High School Band, and a \$10 donation to the Adams County Council of Community Services.

Discuss Awards

A list of awards to be presented at the end of the year to members of the Jaycees was discussed. Awards will include, for distinguished service on the part of a member, committee chairmen and officers, attendance awards, awards for outstanding service to the community, etc.

Following a talk on the 150th anniversary program to be held by Gettysburg in September, the Jaycees instructed their representative at the meeting of the committee next Thursday to offer sponsorship of a beard contest and a "fly-in" by private planes as part of their share of the activities in connection with the town's anniversary.

Out Of The Past

From the Files of the

The Gettysburg Times
15 YEARS AGO

Mrs. Tierney, Dean Emeritus At Mount, Dies: Native of Ireland, 68, Served College Since 1883 — The Right Reverend Monsignor John J. Tierney, 68 years of age, dean emeritus of the faculty of St. Mary's college at Emmitsburg, died about 11:15 o'clock this morning after an illness of a few months. Infirmities of age caused death. He retired from active work two years ago, but it was only for the last few months that he had been unable to be about the campus.

He was born in Ireland in 1883 and came to this country at the age of 14, settling at Louisville, Kentucky.

After preliminary studies there he went to St. Mary's college where he enrolled as a student in 1897 and graduated there three years later. He continued his studies in the seminary department and was ordained for the diocese of Wilmington, Delaware, in 1903. He studied from 1903 to 1906 at St. Stephen's School of Biblical Study at Jerusalem and was recognized as one of the leading Biblical scholars of the country. In 1912 he was elevated to the rank of Monsignor by His Eminence, the late James Cardinal Gibbons.

He delivered the sermon at the first mass conducted by the Rev. Fr. Mark E. Stock in St. Francis Xavier Catholic church here in 1900 and also delivered the sermon upon the occasion of the twenty-fifth anniversary of Father Stock's ordination here in June, 1904.

Mrs. Fortenbaugh Is Elected President of 'T' Directors: Mrs. Robert Fortenbaugh, West Broadway, was elected president of the board of directors of the Gettysburg Y.W.C.A. at the annual organization meeting of the board on Monday afternoon at the association building. Mrs. Fortenbaugh succeeds Mrs. A. A. Hughes who presided over Monday's meeting and conducted the installation of the new officers.

Hess' Escape May Indicate Revolt Within Germany: Montreal, May 13 (Canadian Press) — The Montreal Herald quoted Otto Strasser, leader of the Anti-Nazi Black Front, in a copyright interview today as saying the flight of Rudolf Hess seemed to indicate that the German army chiefs and Hermann Goering seek to overthrow the Nazi Party.

Washington, May 13 (U. P.) — Diplomatic circles agreed today that the melodramatic flight of Rudolf Hess to Britain would be a great blow to the morale of the German people, no matter what the explanation they accept.

Both the official German and the British accounts of the war's strangest episode, it was said, contain elements that can hardly be reassuring to the average man in the third reich.

800 Attend St. James Mother-Daughter Fete: The annual social of the mothers and daughters of St. James Lutheran church was held Monday evening, with approximately 800 persons in attendance. Mrs. Roy Dunkleburger, who was the guest speaker, talked on "Mothers and Daughters in India." Other numbers included two vocal solos, "Little Old Lady" and "Rock-a-Bye Moon," by Mrs. Roy Zina accompanied at the piano by Mrs. Howard Hartzell; a vocal duet, by Gladys Smith and Luther Smith Jr., with accompaniment by their mother, Mrs. Luther Smith; reading, Mrs. George Bender, and short play under the direction of Mrs. Henry T. Bream with Mrs. Edgar Weaver, Mrs. Bream and Paul Pensinger in the cast.

Wedding: Wagner-Lawrence — Miss Mary Anna Lawrence, daughter of Mr. and Mrs. George Lawrence, New Oxford, were married last Friday evening by the Rev. Fr. Leo J. Krichen in St. Joseph's Catholic church rectory, Bonaeauville.

The couple was attended by Grace and James Lawrence, sister and brother of the bride. The newlyweds will reside near New Oxford.

Today's Talk

TEACH CONFIDENCE
Confidence is a wonderful thing. Own confidence in oneself, in others, and in the future. What do we gain by mistrusting? How many a one has lost his job because he had no confidence in himself. Life's success and happiness start with the confidence that we own.

We can all be teachers of confidence by exhibiting our own. We happen to have leaders for they attract followers — we among them. The best thing a salesman carries about with him is his confidence, and when it sinks deep enough in his prospective client he makes his sale! It's that simple.

Ever not that when you come in contact with someone alive with enthusiasm and confidence you are immediately aroused by the contact? Try and find that delightful dog story by John Muir called "Sticks," and read how that little dog took confidence from Muir and safely crossed a dangerous point. We ought to praise anyone who will inspire us with confidence and light a spark within us that we never knew we had.

Every time we inspire others, and increase their confidence, we get back far more than we give. That fact should make us try and give more! The engineer of a great train, and the captain, or master, of a great ship, each in his way teaches confidence, for no matter what the occasion, when an emergency arises, we have confidence that all will be well.

Everyone knows why Gen. George Patton was such a great military leader. He inspired his men always to move forward, at as rapid a pace as possible, and he was there near them all to guide and teach them along the way. It was the same with MacArthur. Both were teachers of confidence. It is the same in civil life. People are happiest in a concern where there is an air of inspired confidence throughout the place.

Tomorrow Mr. Adams will talk on the subject: "Values" Protected, 1956, By The George Matthews Adams Service

Just Folks

TURNING THE TABLES
A patient in a merry mood.
Restored to health, though somewhat thinner.
Once asked, to show his gratitude.
His wise physician in to dinner.
The doctor came. The meal began.
With red tomato juice he piled him.
Then served him up a dish of bran.
But cream and sugar both denied him.

He gave him butter milk to drink;
Dished out a mess of vegetation.
Sad spinach green and carrots pink
And other forms of rabbit ration.

Dessert was what is widely known
As jelly with banana slices.
A pole confection which alone
Some stomach doctor's taste entices.
Sans coffee, cigars, cigar.
The patient chuckled —
"There's the diet
Of which so fond you fellows are!
I thought just once you ought to try it!"

Bullets No-Hit, No-Run Victim Of Dutchmen 2-0; Diplomats Here Saturday

A four-game winning streak of the Gettysburg College baseball team came to an end Thursday afternoon at Annville where Bill Wenrich, star right-hander for Lebanon Valley, pitched a no-hit, no-run game as the Dutchmen blanked the Bullets 2-0.

Wenrich walked only three batters and struck out six. He retired the first 13 batters to face him. Fred Alleva finally reaching base in the fifth inning when he drew a pass.

Schleicher Hurls Well

John Schleicher hurled the distance for Gettysburg and scattered nine hits.

Lebanon Valley scored in the opening frame. Thomas drew a walk to open the inning and was moved to second on Reinhart's bunt-single. Bill Schader then singled to score Thomas. The rally expired via a Bullet double play.

The only other run came in the fifth. McEvoy singled. Wenrich laid down a sacrifice and when Schleicher threw wildly to second base, McEvoy was safe. After two were out with the bases loaded, Schader again came through with a hit, McEvoy scoring.

Alleva Reaches Third

The Bullets only threat came in the fifth after Alleva walked. He stole second and third bases but Bob Swenk fanned and Al Tetti filled out to end the inning.

In the sixth Jack Bream was safe on an error. After two were out, Art Hendley walked. However, Ken Polak grounded out, Wenrich to Schader.

The Bullets, 8-4, meet Lafayette at Easton today and entertain Franklin and Marshall here Saturday afternoon at 2:30.

Approximately 300 boys and girls from public schools of Adams County will gather at Biglerville High School Saturday morning for the renewal of the annual field and track day program.

TRIBE HANDS YANKEES 7-2 DEFEAT; LEMON TAMES CHAMPS

The Associated Press

This was supposed to be Black Friday in the American League—the day seven clubs awoke to find themselves among the walking dead with the New York Yankees having copped the pennant at the earliest date yet.

That's the way the talk was going. Those Yanks had smacked the Boston Red Sox 4 out of 5 and spanked the Chicago White Sox 2 out of 3. All they had to do was fast-shuffle the Indians and of Casey Stengel had the deck stacked again.

But the Cleveland Indians put a stop to all that. The tribe won the rubber game of a three-game series going away yesterday at Yankee Stadium. The 7-2 victory lifted them past Boston into second place, two games behind New York.

Boston went down 2-1 to Chicago, which snapped a five-game losing streak.

Those were the only two games played in the majors. All the other scheduled contests were rained out.

If Cleveland keeps this up, Manager Al Lopez can write a sure-best seller entitled "How to Beat Casey Stengel." Stengel, now in his eighth year with the Yanks, has lost only one season series in that span and it was Cleveland that did it, 13-9 last year.

Bob Lemon, who couldn't get the job done in six tries against the Yanks last season, went the route with ease yesterday on an eight-hitter. His only mistakes were home run balls to Mickey Mantle and Yogi Berra. It was Mantle's 11th, Berra's 10th.

The Indians gave Maury McDermott a hit. The veteran southpaw was rapped for five of the Tribe's eight hits and four runs in five innings.

It was all over in the third. Chico Carrasquel doubled, Jim Hegans—who had four straight walks—scored him with a single and took second on the throw to the plate. Then Jim Busby singled Hegans home and Al Rosen cracked a 450-foot triple.

Members of the local teams are as follows: Team 1, Michael Tate, Eugene Cole, George O'Connor, Joe McKenrick and Bernie Cole; Team 2, Ralph Johnson, Donald

Bizarre Fighter Meets Smallwood

SYRACUSE, N. Y. (AP)—Yama Bahama, a middleweight with a style as bizarre as his ring name, is the 3-1 favorite to beat Hardy (Bazooka) Smallwood in a 10-round fight here tonight.

Bahama was expected to weigh in at about 152 and Smallwood at 158 for the bout in the War Memorial Auditorium. It will be broadcast and telecast nationally (NBC, 9 p.m., EST).

Bahama has won 40 bouts, lost 4 and drawn twice. Smallwood's record is 18-4-2. Both are 23.

All scoring in Thursday's game came in the first inning as the Bubblers took advantage of three Springers' errors for two runs in their half. Despite four safeties in the last half of the same frame, York Springs could muster but one run as the result of some loose base running.

Hanover clinched the 1956 baseball championship of the South Penn League by crushing Chambersburg 8-1 on the Nighthawks' diamond Thursday. Shippensburg, defeated by Gettysburg 3-1, won the title last season.

In a tight well-played South Penn League game which resolved itself into a beautiful pitchers' duel between Ronnie Gigous of Gettysburg and High School and Dick Gardner, Shippensburg, the Warriors nipped Shippensburg here Thursday afternoon 3-1.

Gigous, getting credit for his second victory in as many days, gave up but four hits and was backed by some fine defensive work on the part of Earl Little, Harmon Spence, Jim Gilbert and Roland Keller. Two double plays were executed by the Warriors.

Gardner yielded only three hits, including a triple by Fred Furney, and whiffed four.

Helped By Errors

The Warriors scored a pair of their runs in the second inning, aided by a pair of Greyhound miscues. Keller led off and reached base on a bobbie by Freeman. Furney then smashed his triple to send Keller across. Roll Johnson was saved on Freeman's second miscue as Furney tallied. A double play stopped the rally.

Shippensburg scored its lone run in the third. Ed Karper drew a walk and advanced to second as Keefe tossed out Nye. Gary Long singled Nye home. Gardner forced G. Long and Don Long skied to Spence to end the inning.

Gigous Aids Own Course

Coach Howard Shoemaker's outfit tabbed its final run in the fifth. Spence singled and was moved up on Little's sacrifice bunt. Gigous rapped a single to send Little across.

The victory evened the Warriors' league record at 2-2 and gives them an overall season mark of 4-3.

On Monday the locals play at Chambersburg and next Wednesday play their final home game against Boiling Springs.

Senate Has Bill On GSA Appropriation

HARRISBURG (AP)—An additional \$60,000 in General State Authority funds would be provided for construction of a third home for mentally retarded children in a bill ready for final Senate action today.

The proposal was inserted on Wednesday into a bill to increase by 100 million dollars to 430 millions the borrowing capacity of the GSA.

The administration originally asked that the GSA borrowing power be increased to 460 millions but that figure was cut by the Senate to 430 millions.

REJECT AMENDMENT

HARRISBURG (AP)—The House Wednesday rejected Senate amendments to a bill providing for six district and an annual statewide dairy show for Pennsylvania farm youth.

The Senate cut the House-approposed \$30,000 appropriation to \$10,000. The measure will go to conference committee unless the Senate withdraws its amendment.

HARRISBURG (AP)—School teachers who retired prior to 1951 would be granted an additional \$912,000 in pension and disability benefits under a bill sent to Gov. Leader today. It was passed by the Senate Wednesday.

H-BOMB BLAST IS POSTPONED

USS MT. MCKINLEY, Off Bikini (AP)—An off-and-on H-bomb test scheduled for dawn Thursday was postponed again 8½ hours before blast time.

The command ship Estes said "It now appears that Sunday (Saturday, U. S. time) will be the earliest possible date on which conditions might be favorable."

The Estes said wind patterns had shifted so that the Marshall Islands might have been endangered by a blast Thursday.

Adverse weather had caused three previous postponements from the original date of Monday, U. S. time.

Officials said the latest delay could be for 48 hours, which would make the next scheduled firing Saturday, U. S. time.

Joint Task Force 7 already started its evacuation of Bikini Atoll and its preparation for the blast hours earlier in hope that the B52 Stratofortress which is to carry the bomb could make its payoff run over the target island of Namu.

Ships on their way to blast stations turned back.

GOP Chairman Leonard Hall announced the appointment on Wednesday.

Atlantic Is Shaving Price Of Gasoline

PHILADELPHIA (AP)—To meet a "competitive situation," Atlantic Refining Co. is advising its dealers in the Philadelphia area to reduce gasoline prices a little more than one-cent a gallon.

Effective today, Atlantic's suggested retail price is 25.9 cents a gallon including state and federal taxes for regular gasoline. The price formerly was 27 cents a gallon.

Atlantic said its dealer tank wagon price in the Philadelphia area will be reduced to 21.5 cents a gallon from 22.5, including taxes.

DELAIR, N. J. TO GET FORD PLANT

DEARBORN, Mich. (AP)—Ford Motor Co. announced Thursday the purchase of a 38-acre site near Delair, N.J., for a large warehouse and office building that would serve as a parts depot and export facility.

Ford said the plant, to be completed in 1957, will take over parts and accessories inventory operations now maintained at the Ford assembly plant in Chester, Pa., some 20 miles away.

In addition, the Jersey plant will handle export operations now maintained in Chester. The space released at Chester will be used, Ford said, "for more efficient arrangement of Ford car and truck production equipment."

The Delair plant, to be located along U.S. 130, several miles north of Camden, will be a one-story steel and brick structure 760 by 480 feet. A one-story 14,000 square foot office area will front the building.

Chester employees engaged in stock and export operation will be given an opportunity to transfer to the new plant, Ford said.

The parts depot in the new plant will be the only Ford operation in the United States handling automobiles "knocked-down" and crated for export, the company said.

DIES OF INJURIES

PHILADELPHIA (AP)—Two workers on their way home were killed on the Pennsylvania Turnpike Wednesday in the collision of their automobile with the rear of a tractor trailer truck.

The crash occurred five miles west of the Philadelphia interchange. Killed were Francis J. Hoffman, 31, of Hatboro, and Joseph Hafke, 49, of Norristown. They were returning from the Kaiser Metal Products Co. plant at Bristol.

COURT ORDERS BUSES TO STOP DESEGREGATION

MONTGOMERY, Ala. (AP)—Circuit Judge Walter B. Jones, taking note of racial tension and unrest here, Wednesday ordered Montgomery city lines to discontinue a desegregation policy on city buses.

Jones held that segregation on buses which operate solely within states has not yet been outlawed by the U. S. Supreme Court and added that nothing in the federal Constitution prohibits it.

On these grounds, the veteran jurist ordered the bus company to "comply and abide" by city and state laws which forbid mixing of races on public conveyances.

In Chicago, Vice President Benjamin W. Franklin of National City Lines, Inc., parent firm of the Montgomery company, said: "We will obey the injunction, of course." He said no decision had been made by the company on future legal action, if any.

Appeal Is Dismissed
The National City Lines announced it was adopting a policy of desegregation after the Su-

preme Court's April 23 decision which dismissed an appeal from the U. S. 4th Circuit Court of Appeals. That court had held that separation of the races on Columbia, S.C., buses was unconstitutional and had sent the case back to the original trial court to determine the question of damages.

The Supreme Court's decision had been interpreted as outlawing segregation on city or intrastate buses, but some lawyers now contend it did not.

Actually there have been no reports of desegregation aboard buses. Negroes are continuing their five-month-old boycott of city buses in protest over the seating arrangements.

City officials, in filing their injunction petition, said desegregation on city buses more than likely would bring about violence and possible rioting.

DRIVER KILLED

HARRISBURG (AP)—Benjamin W. Stauffer, 49, of nearby Middletown R. I. was killed Wednesday when his car went out of control on Rt. 230 near his home and crashed into a utility pole.

HARRISBURG (AP)—Mrs. Delcie Trego, 58, of nearby Oberlin, injured in an auto-truck collision last Sunday on Rt. 11 in Cumberland County, died Wednesday at a Harrisburg Hospital.

ASK REDS FOR UNITED EUROPE

AACHEN, Germany (AP)—Sir Winston Churchill called on the Soviet government Thursday to show the validity of its new look by joining in a "bona fide united Europe."

The 81-year-old British statesman called on the world to avoid violence and seek unity instead as he accepted the Charlemagne "United Europe" award from this ancient coronation city of German kings.

Less than a mile away some 600 refugees from former German territories annexed by the Communists held a quiet 20-minute meeting protesting the award to Churchill. They accused him of partial responsibility for the territorial loss because of his role at wartime Big Three conferences which arranged the division of Germany.

Inside the 1,000-year-old hall where Charlemagne was crowned Roman emperor, a crowd of 700

listened intently as Sir Winston advised "in a time of unity in Europe, Russia must play her part."

Since World War II, he continued, Soviet policy had divided Russia from her wartime allies.

His listeners applauded loudly as Churchill declared that to bring about a united Europe, it was necessary to have a united Germany.

PENN STATE U. APPROPRIATION BILL HELD UP

HARRISBURG (AP)—A 26 million dollar appropriation for Pennsylvania State University today remained on the desk of House Speaker Andrews although it has won final legislative approval.

The House Wednesday voted 191-0 to accept a Senate amendment which added one million dollars to the \$25,194,000 figure provided for by Gov. Leader's budget and carried in the House's original version of the bill.

"The bill will be held with the others and will go to the governor when all the other appropriations for universities and colleges are released," Andrews said.

Holding 50 Bills
He is holding more than 50 bills calling for several hundred million dollars in appropriations until the present fiscal situation is cleared up. The delay, through mutual agreement of Andrews and the governor, is designed to give the governor additional time before he is forced to sign the bills. In general he has 10 days to sign or veto a bill after it reaches him.

"This bill will not be shot over (to the governor) by itself," Andrews emphasized.

The appropriation is to cover the state's aid to the land grant institution for the 1955-57 fiscal period. It is about six million above the 1953-55 Penn State appropriation.

Some For Research
Of the total 26 million, \$25,783,000 would be earmarked for general maintenance, research, salaries, materials and other general expenses of the schools. The remainder would go toward special research projects, some partially paid for by industry interests.

The vote on agreement in the Senate change came near the end of a six hour session with less than 50 members still remaining in their seats. There was no debate.

Before the Senate finally decided upon increasing the appropriation one million dollars a two million boost was proposed.

Up To Governor
Last week Chairman Polen (D-Washington) of the House Appropriations Committee cautioned that the fiscal condition of the state would determine finally whether the governor would approve the additional one million. The remainder of the 26 million would go for:

Crop and livestock research by the agricultural experiment station—\$150,000; research and experimental investigation on petroleum industry problems—\$66,000; research on by-products of anthracite and bituminous coal and de-

Israel Railroad Is Blown Up Wednesday

JERUSALEM (AP)—The Beer-sheba-Tel Aviv railway line was blown up Wednesday night 3 miles north of Beer-sheba, an Israeli army spokesman announced today.

The line is an artery of commerce between Israel's Mediterranean coast and the Negev Desert. Beer-sheba lies about 15 miles west of Jordan's frontier and 25 miles east of the Egyptian-held Gaza Strip.

The army spokesman said he had no details on the blast.

Three other minor incidents were reported along the Israeli-Arab frontiers, despite cease-fire pledges U. N. Secretary General Dag Hammarskjöld obtained on his Middle East peace mission last month.

Approve Changes In Banking Code

HARRISBURG (AP)—Technical and correctional changes would be made in the State Banking Code under a bill sent to Gov. Leader Wednesday after final legislative approval.

But in passing the measure 190-1 last night, the House beat down a move to make banks pay at least one per cent interest on checking accounts if they charge a fee for checks, 20-88.

24 ROCKETS SET OFF BY MISHAP AS JET UNLOADS

MOUNT CLEMENS, Mich. (AP)—Two buildings were struck Thursday when 24 rockets were set off accidentally while being unloaded from a Sabre Jet plane at Selfridge Air Force Base.

An Air Force man was burned when the missiles shot out from the plane's rocket pod.

One rocket shot into a home about two miles east of Mount Clemens. Another hit a building in the salvage yard at the base.

A girl found one of the unexploded rockets in front of the L'Anse Cruse school and took it into the building. Air Force officers were summoned to remove the firing mechanism.

Seal Off Area
Police sealed off a two-mile area while Air Force personnel searched fields and residential areas to retrieve the unexploded missiles.

The Air Force warned persons finding the rockets not to handle them.

Base officials said the rockets apparently were set off by an electrical short in the firing mechanism. The missiles were in a pod being lowered from the plane's fuselage.

Airman William Hamm of Hammond, Ind., near the plane, suffered first and second degree burns when the rockets fired.

92 New Polio Cases Reported In Week

WASHINGTON (AP)—There were 92 new polio cases reported last week. This was an increase of 18 over the week ended April 28, and compares with 149 in the corresponding 1955 week.

Since about April 1 there have been 393 cases, compared with 536 in the similar 1955 span.

A Public Health Service spokesman, however, reiterated the statement he made last week that "it is too early" to attempt any guesses as to what this may signify for the rest of the year.

Health Service officials also say no one can yet tell whether use of Salk polio vaccine is causing any drop in cases.

Ask Police To Find Bakery Truck Driver

HARRISBURG (AP)—State police were asked Thursday to search for Harold O. Miller Jr., 19, Harrisburg, after a bakery truck the youth was driving was found abandoned near the Indian town Gap Military Reservation.

The youth's father, Harold O. Miller, Sr., said he was unable to locate the father said he drove his son to work yesterday.

"The last time I saw him was when he got out of the car and walked toward the bakery garage," Miller said.

Sept. 1 May Be Starting Date For Sales Tax Stamps

HARRISBURG (P) — Sept. 1 shaped up today as a possible new starting date for the stamp plan in collecting the 3 per cent sales tax.

House Democratic leader Readinger said Republican legislative chieftains agreed with him that the existing July 1 effective date is too soon.

Under the stamp plan insisted upon by House Republicans, retailers will issue stamps to customers as evidence that the sales tax was paid.

"The mechanics of printing the stamps and distributing them to retailers throughout Pennsylvania makes it impossible to comply with the July 1 date," Readinger said.

Longest Session To End

Readinger made the disclosure as the lawmakers started a new drive to adjourn finally by the end of next week. He conceded, however, that it may take somewhat longer to wind up what is now the longest session in the history of the commonwealth.

The agreement between Democratic and Republican legislative leaders on amending the sales tax, he said, also calls for:

1. Wiping out the \$2 license fee collected from retailers who collect the tax. Refunds would be made to those who already paid the fee.

2. Exempting from the tax all manufacturing machinery. There was a question that machinery

which made non-taxable items (such as a dough mixer in a bakery) would be taxable.

3. Limiting the machinery exemption to that used in actual manufacturing. For example the typewriter purchased by a steel mill would be taxable.

4. Spelling out that the sales tax applies only to the ultimate consumer and would not apply to the manufacturing or wholesale level.

5. Specifically listing as taxable under the leather goods section the purchase of purses, wallets, handbags and umbrellas but exempting shoes and slippers unless used for formal wear.

6. Exempting the purchase of religious articles such as Bibles, prayerbooks and rosaries.

Will Suggest Changes

"I intend to recommend these changes to the House Democrats who voted for the sales tax," Readinger said.

But Readinger said he didn't know how rank-and-file Democrats would greet a GOP proposal to exempt wrapping paper, twine and similar items. That will be up to the House Democratic caucus at a session next Tuesday.

In another development, the Senate rushed for a final vote tomorrow the House-passed plan to increase teachers' salaries.

The measure, estimated to cost 20 million dollars in the current two-year fiscal period, would pay a \$100 cost-of-living bonus immediately and an extra \$200 raise for

each the 1956-57 and 1957-58 school years.

Gov. Leader has contended there isn't enough revenue from the sales tax to finance the teacher pay boost and other state commitments.

Readinger, asked if he thought the Democratic-controlled House would over-ride a gubernatorial veto of the measure, said:

"My guess is that it would."

The House passed the bill Tuesday by a 190-1 vote.

Meanwhile, the Pennsylvania State Chamber of Commerce recommended that the Legislature require school districts to put up a larger share toward financing teacher pay boosts.

It noted that the state contributed 23 per cent of the current operating expenses of public schools in 1940, 38 per cent in 1950 and 45 per cent in 1954. The new measure would increase the figure.

The Senate released the floodgates on appropriations. It sent to the floor the \$152,428,000 general appropriation bill for regular state expenses for the two-year period ending May 31, 1957.

Actually, the figure is far below the one-time omnibus general appropriation measure because the Legislature already has passed 170 millions in stopgap grants chargeable to the big money bill.

The plan to increase state aid for local roads from 18 millions a year to 30 millions went to a conference committee to thrash out differences between the House and Senate on whether cities should get a larger share.

Also sent to conference were measures to provide more than 22 million dollars in state aid for hospitals and \$791,600 for state-aided homes.

Seek Tax Repeal

In the House, legislation was passed to repeal, effective June 1, 1957, the 15 per cent inheritance tax on bequests to charitable and educational institutions. The Senate must agree to the effective date.

The House also planned to take up next week the plan to double legislative salaries to \$6,000 a year and give other state officials substantial pay boosts.

The final vote was postponed so that the salary boost measure could move with a proposal to increase judges' pensions.

Readinger said he doubted if the stamp plan for collecting the sales tax would be knocked out despite opposition from Democrats on both sides, Senate Republicans and the governor.

BANK URGING AMERICANS TO CUT SPENDING

By SAM DAWSON

NEW YORK (P)—So many people want to borrow that banks are having trouble finding the money to lend. A drive is on to induce Americans to spend less and save more.

If they save more, the banks will have the money to lend to business to expand, to people to build homes, to governments to build schools and roads. Inducements run all the way from appeals for greater thrift to the raising of interest payments to those who save.

Telling Americans what they ought to do with their money doesn't necessarily work—in the past they've usually changed their spending or saving habits of their own free will and in their own good time. But W. Randolph Burgess, under secretary of the Treasury, is trying. He says, "I think in the long run this country would make faster progress if we saved a little more and spent a little less."

Must Save First

His point: We must save first to build up productive capacity; otherwise, we'll try to expand too fast and just bid up prices on the material and labor we have, and thus pull the dollar's buying power another notch or two lower.

Boosting interest rates to savers may work more effectively. It costs more now to borrow. It pays a little more now to save. Bankers say, however, that this trend hasn't changed things much yet. The demand for loans seems as high as ever, and the volume of savings so far this year is below that of a year ago.

People are still saving. And the total volume of saving continues to rise. But the percentage of personal incomes after taxes that are going into the various forms of saving is smaller now than a year ago.

Paying Off Now

One reason may be that since people piled up such a large debt last year, they are mainly occupied right now in making the regular payments needed to reduce it. The slower rate of savings is one reason—and probably just as

Pass Compromise Bill For STC

HARRISBURG (P)—The House has adopted 191-0 a compromise bill that would give Shippensburg State Teachers College \$60,000 for partial payment of improvements on the school's sewage disposal system.

The \$60,000 figure, approved yesterday, was the same amount passed by the House last November. However, before the Senate approved the bill in March it reduced the sum to \$40,000.

The compromise version accepting the original House figure was written by a joint House-Senate committee. The Senate has yet to act on the report.

The money would be the state's share for work done and paid for by the Borough of Shippensburg.

SAYS RED ARMS CUT NOT MOVE TOWARD PEACE

By LEWIS GULICK

WASHINGTON (P)—Secretary of State Dulles said Thursday it is quite possible the Soviet Union has cut its armed forces and may reduce them more. But he said the purpose is not peace and the free world must keep its guard up.

Winding up the administration's appeal to the House Foreign Affairs Committee for a \$4,900,000,000 foreign aid authorization, Dulles said nothing has yet happened in the world situation to make it "prudent to terminate or curtail" the program.

Chairman Richards (D-SC) has said the committee may cut the authorization by as much as 1 1/2 billion dollars.

Some Favorable Signs

Dulles said there are some "germs of high favorable developments" in Russia. Speaking of open newspaper debate on Stalin and other issues, Dulles said these might indicate some concession to public opinion by the Soviet leaders.

"Our long range purpose," he said, "is to accelerate the day when the Soviet Union will be a decent state to do business with." But the secretary said that when he speaks of such a development he is thinking in terms of "10 years or even a generation."

May Be "Overextending"

Meanwhile, he said, if the Soviet leaders are allowed to have successes abroad with their new

effective a one as any taken by the money managers—that money is tight now and interest rates rising.

The treasury official would like to see savings increase so that the nation's economic expansion won't come at the cost of inflation. Or, as one banker here puts it, people should be induced "to rely more on their own money and less on the other fellow's."

BLIND TO GET PENSION RAISE

HARRISBURG (P)—A compromise report to boost pensions for blind persons from \$50 to \$60 a month was approved unanimously by the House.

The proposal, worked out by a joint House-Senate Conference Committee but identical to the bill previously approved by the House, was accepted by the lower chamber Wednesday night 191-0. The Senate must still act on the bill.

professionals of peaceful intentions and offers of economic aid, the pressure on them to relax at home may be reduced — "People might say, we are succeeding so well abroad, let's go on the way we have."

Dulles said he thinks the Soviet Union may be overextending itself by carrying on extensive developments in new weapons, guided missiles increased industrial base and intensified agriculture all at once.

"In the light of all that," he said, "I think it quite likely that soon the Soviet Union may reduce some forms of its military establishment, notably in manpower."

before it can go to Gov. Leader. Under the measure, the higher pensions would become effective June 1 and the Department of Public Assistance would receive \$2,150,000 to pay the larger sum. In addition, the bill would increase the amount of income a blind person can have and still receive the full state pension. The present \$1,716 limit would become \$2,500 a year for total outside income and pension.

At the same time the House also accepted a compromise bill to require state licensing of all persons drilling a water well after June 1. The Senate has not yet acted on the conference report.

Church Of God, York Springs
The Rev. Walter Frye, supply

When they want an angel food cake for the church bazaar, Mrs. Turner is apt to be asked to bake it. She almost always responds to such requests with a simple, "I'll be glad to."

If you ask people about Mrs. Turner, they will tell you that she is one of the happiest women in town. Yet not so long ago she was feeling pretty sorry for herself. Life seemed such a humdrum affair. As an accomplished musician, she had had dreams of the concert stage, but marriage and children had changed all that. Somehow it didn't seem fair!

Then one Sunday, a friend persuaded her to go to church. The sermon happened to be about the ingredients that make a full and happy life. The things the minister said struck home, and the next Sunday she found herself back in church again. Then one Sunday Mr. Turner went along, and next, the youngsters.

Now Mrs. Turner is still "just a housewife," but is she dissatisfied with her role? Look at her face, and see for yourself! It took the Church to show her that she already possessed all the tools needed for fulfillment and happiness, if she would but use them. Now, she does.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

PREACHING TO THE GENTILES

Acts 11:1-18

Key Verse: I perceive that God shows no partiality but in every nation anyone who fears him and does what is right is acceptable to him. Acts. 10:34-35.

After the conversion of Saul there was a period of comparative peace among the Christians while the Church grew and its members were strengthened in the faith. The ministry and activities of Peter came to the fore again and three events occurred which were of great importance to the early Church. The first happened at Lydda where a man named Aeneas was healed of the palsy — an act which resulted in many being converted both at Lydda and Sharon.

Next in the series of miracles performed by Peter was the raising of Dorcas from the dead. She had lived at Joppa where she sewed, helped the poor, particularly the widows. At her death there was much mourning so several of the congregation at Joppa sent for Peter, knowing that he was on a missionary tour in Judea. After she was brought to life "many believed on the Lord."

The most remarkable event, however, occurred at Caesarea where the Cornelius, the centurion, lived. This is one of the finest lessons in race relations, particularly in overcoming prejudices deeply ingrained in one's character. Peter was not a young man at the time and it was not exactly easy for him to forget his Jewish training and feeling that Christianity was to be brought exclusively to the Israelites. This experience, the work of the Holy Spirit, was to change his whole outlook as well as the future policy of the young church.

The conversion of Cornelius and his family illustrates well the fact that not all conversions are alike. On this occasion the work of the Holy Spirit is emphasized particularly. Probably the writer did this purposely since the baptism of a man of a different race was a milestone. Here Christianity met head-on the religious prejudice of the ancient Hebrews. Peter had neither the education nor worldly experience of Paul, but he had lived with Jesus, caught His spirit, and made wise decisions.

Reaction Of Apostles
The first part of the lesson records the reaction of the apostles in Jerusalem who heard about Peter's preaching to the Gentiles at Caesarea and baptizing them. When Peter returned to the Holy City, he was severely criticized by the "circumcision party." Many were too narrow-minded to catch the vision of a world-wide Church. Peter's chief offense was being entertained in Gentile homes and eating their food. In Peter's explanation of what occurred (11:5); the vision he had becomes a parable. It shows clearly that God makes no distinction between Jew or Gentile, or between men of any particular race or religion. The Word is to be preached to all men. Peter's conclusion was that those who had been filled with the Holy Spirit at Caesarea should "be treated as brothers and recognized as members of the body of Christ." His carefully worded arguments convinced them, but the matter was not settled finally until the Council of Jerusalem.

It was Peter who laid the foundations of the young church and he did his work well and conscientiously. After the Council of Jerusalem he recedes into the background and little is known of his later missionary endeavors. Tradition has it that he traveled east to Babylon before returning to Europe and Rome where it is believed he was martyred. Always he will be known as the strong, impetuous leader devoted to the Lord. He knew the heights and depths of Christian experience and had been privileged to preach and baptize on the first Day of Pentecost. His life of devotion to the cause of Christ is described in a novel of Lloyd Douglas entitled "The Big Fisherman." The tests of faith he endured are written indelibly into the history of the Church.

SAY REVISED FARM BILL CAN BECOME LAW

By EDWIN B. HAAKINSON
WASHINGTON (AP) — Senators Young (R-ND) and Ellender (D-La.) said today they are confident a revised farm bill including a soil bank program can become law even if President Eisenhower should veto it.

Sen. Aiken (R-Vt.), who often speaks for the administration, said the bill approved by the Senate Agriculture Committee "is completely unacceptable to me" and he would recommend a veto "unless it is cleaned up." Young and Ellender predicted Congress would override a veto of the present Senate bill.

Aiken objected particularly to a provision for mandatory price supports for next year's crops of oats, barley, rye, grain sorghums and corn grown outside the principal corn belt.

Will "Hurt" Farmers
"More farmers would be hurt than helped by this provision," he said. "It might be wiser to have no new farm legislation than this provision."

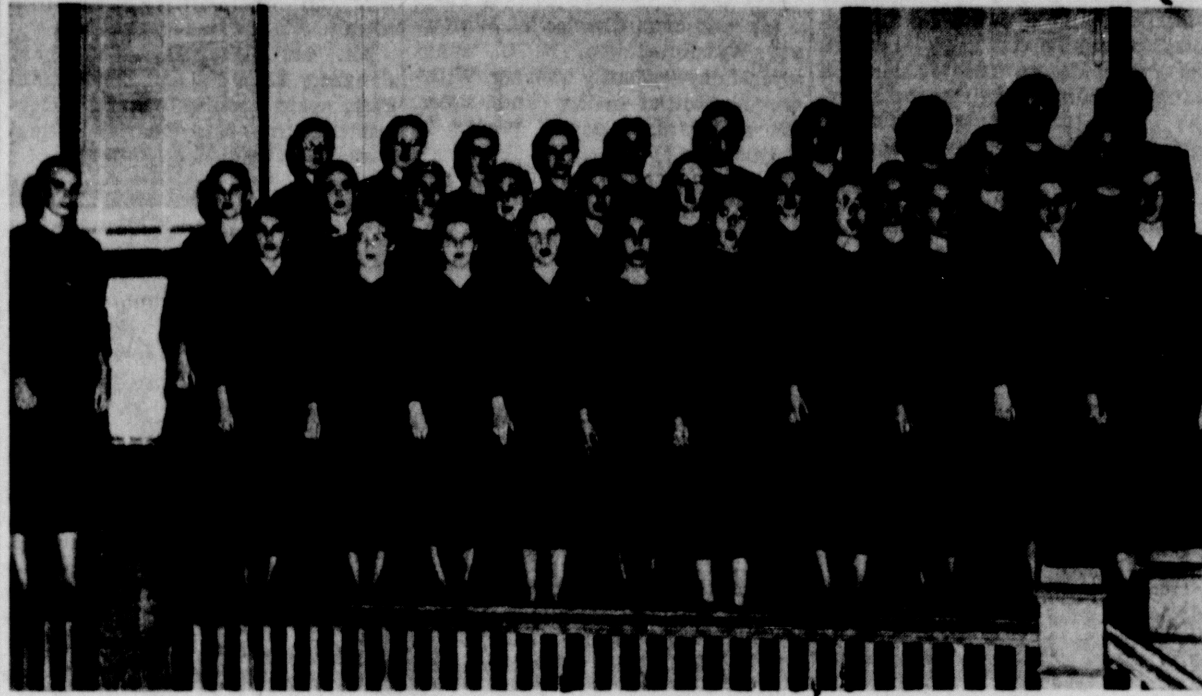

Young, who voted with a majority of the Agriculture Committee in approving the feed grains provisions, said most opposition to it "comes from Northeast states and other regions which want cheap feed grains in surplus," adding: "The Midwest is interested in fair prices for pork, beef and grains. You can't have them with a surplus of cheap feed grains."

Young continued:
"This bill could be passed over a presidential veto but I do not expect one."

Ellender, the committee chairman, said he agreed with Young's appraisal, and he added: "There would be no excuse for a veto this time."

No Excuse For Veto
Ellender noted that the present bill, unlike an earlier version

Harold D. Lehman, chairman of the extension committee of the college, will accompany the group. Eastern Mennonite College is owned and operated by the Mennonite Church, and offers work on both the college and high school levels. The enrollment for the current session is 624.

which Eisenhower vetoed April 16 as unworkable, does not contain rigid price supports for basic crops or a dual formula for computing parity. It does include administration-opposed provisions to prevent declines in price support levels for wheat, corn and peanuts. Ellender said he hopes to call the bill up for Senate action next Wednesday or Thursday.

Supreme Court Will Have To Decide On Bus Segregation

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON (AP) — When the Supreme Court acts like Calvin Coolidge—a man of few words—it can produce more confusion than clarity. It did so on the question: Is segregation on buses within a state unlawful?

It didn't say yes or no. It threw the question back to the lower courts. Now the case will have to work its way back up to the Supreme Court for an unmistakable answer which almost certainly won't come before 1957 or later.

This delay, while confusing, nevertheless avoids throwing more fuel on the Southern fires burning fiercely over the Supreme Court's ruling of two years ago that public school segregation is unlawful.

Southern states can fight bus desegregation within their borders on the ground the Supreme Court hasn't been clear about it. They are, already.

Go To U. S. Court
Four Negroes in Montgomery, Ala., yesterday started an action—by going into federal court, not state court—which may force bus segregation back into the lap of the Supreme Court by the shortest route.

They asked a three-judge federal court to rule bus segregation in Alabama unconstitutional. Whatever that court's decision, it can be appealed directly to the Supreme Court without the delay of going through a federal court of appeals.

This is the problem and the confusion:
On May 17, 1954, the Supreme

Court outlawed public school segregation. It did not say any other form of segregation was wrong. Until told otherwise by the Supreme Court, Southern states were left free to practice every other kind of segregation.

Fight Over Segregation
This meant Negroes would have to fight other forms of segregation up to the Supreme Court for a final decision.

In November 1955 the Supreme Court outlawed segregation in public recreation places. Ten years ago it had banned segregation on buses crossing state lines.

The question of segregation on buses operating entirely within a city or state was moving through the courts. South Carolina, like its sister Southern states, has a law requiring segregation on interstate buses. In June 1954 a Negro sat in the white section of a bus in Columbia, S. C.

Asks \$25,000 Damages
The driver ordered her out. She said he struck her. She went into federal court, asking \$25,000 damages from the company. She argued her case belonged in federal court because bus segregation is unconstitutional. But Federal Dist. Judge George Bell Timmerman Sr. ruled her suit did not belong in his court because the bus segregation law of South Carolina was not unconstitutional.

He appealed to the U. S. 4th Circuit Court of Appeals, which reversed Judge Timmerman. It said the Supreme Court opinion on schools applied to buses too, and ordered Timmerman to let the woman's damage suit go to trial. This meant he would have to tell the jury—and, thereby, the state of South Carolina—that bus segregation was wrong.

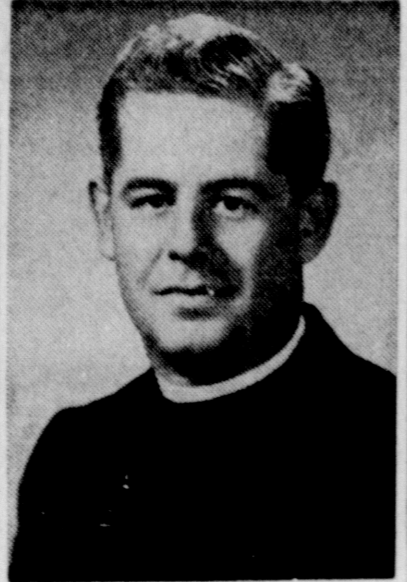

The bus company appealed to the Supreme Court. That court simply dismissed the appeal. It cited a previous Supreme Court ruling that it would not consider an appeal from a case where there had been no final judgment.

Case Is Returned
Some lawyers—and Southern officials—took this to mean the court hadn't ruled against bus segregation but was only throwing the case back to Judge Timmerman for trial of the damage suit.

Others argued the court had, in effect, upheld the Circuit Court in outlawing segregation since it let the appellate court's ruling stand. It's possible—but it's hard to see how it can happen—that in a later, fuller decision the Supreme Court may overrule the appellate court and hold bus segregation legal.

That was the beginning of the

REV. F. B. MYERS

Rev. Francis B. Myers, Silver Spring, Md., regional director for the Lutheran Evangelism Mission in the United Lutheran Church in America, heads the West Penn Lutheran Evangelism to be held in Adams, Cumberland, Franklin, Perry and Fulton Counties May 13 through May 19. It is part of a two-year-national-wide evangelism program.

A native of Ambler, Pa., Rev. Myers was graduated from Glen Rock York County. He received his A.B. from Gettysburg College in 1933 and was graduated from the seminary in 1944. He served as a chaplain in the U. S. Navy from 1944 until 1946, when he became pastor of Christ Church, Johnstown, Pa. From 1948 until 1955, he served as pastor of Trinity Church in Milton, Pa. He has been regional director since Sept., 1955.

confusion. Southern bus companies—particularly in Columbia and Montgomery—decided the Supreme Court had banned bus segregation and, in spite of state laws to the contrary, desegregated their buses.

Then Southern state authorities

stepped in. The South Carolina Public Service Commission ordered the Columbia buses to continue segregation. A state judge gave the same ruling in Montgomery.

Their argument: the Supreme Court hasn't specifically banned bus segregation. But now the four Montgomery Negroes, by their appeal to the three-judge federal court there to order an end to bus segregation, are starting the machinery for an eventual ruling by the Supreme Court.
